My Skills, My Future

DTTTI Overview

Name : Dhaka Technical Teachers' Training Institute (DTTTI).

Location : Technical mor, Mirpur Road Darus-Salam, Dhaka - 1216.

Head Office : Bureau of Manpower, Employment & Training (BMET).

Ministry : Ministry of Expatriates' Welfare & Overseas Employment (MoEWOE)

Background

Bangladesh is a small country with a large population of 160 million. This provides a huge potential for further economic development, but progress is hindered by three main factors: Poor infrastructure, Lack of quality training and the Lack of Skilled workforces. Lack of skills reflect in the countries high rate of unemployment and it also cause underemployment. Bangladesh has more than 10 million migrant workers, but most of them are low skilled, making money in low paid jobs. Bureau of Manpower, Employment & Training (BMET) operates 104 Technical Training Centre (TTC), 6 Institutes of Marine Technologies which have a focus on skills training. Moreover, TTCs will be established in every Upazila in the near future.

TVET teachers are the prime movers of skills training. To be able to produce trainees equipped with technical skill that could meet the skill requirements, there is a need to improve and enhance the pedagogical and technical skills of TVET teachers. With the view of updating the knowledge and skills of TVET teachers in Technical & Vocational Institutions, Dhaka Technical Teachers' Training Institute (DTTTI) Can play a vital role. For this reason the Ministry of Expatriates' Welfare and Overseas Employment established **Dhaka Technical Teachers' Training Institute (DTTTI)** with the assistant of Islamic Development Bank (IDB).

Implementation Period:

Years of establishment 2016

Objectives to Establish DTTTI

1. To improve the quality of TVET Teachers.
